- 10 Yes Snow-White! Who needs a prince when we can make a difference on our own?
- 14 I think our stories are still worth reading.
- 21 Wow! Isn't this great? We're all doing things now instead of just... waiting for things to happen.
- 25 We're not really in trouble.
- 41 People aren't reading our stories anymore.
- 102 That sounds very heroic of you.
- 105 Well, we'd better be going. We're off to help a village with a bit of a problem.
- 122 Yes, it's hard to ignore. Almost like it's calling us here.
- 134 That's Right! And this storm can't be scarier than facing a bear! We'll handle it together.
- 154 What kind of help? Are we stopping one storm just to start another?
- 170 Alright, "gallant leader." Let's see what you've got!
- 187 Look at that light. It's like we're creating our own bit of magic!
- 190 (shouting over the noise)
- 199 To stand with others, no matter the odds!
- 213 I've always wanted a family beyond my forest. I think I've found that with all of you.
- 226 We wouldn't expect anything less!
- 236 A sleepwear line! That's actually... brilliant.
